NAVSUP Weapon Systems Support (WSS) Employees Tour – Effort Foundry

A group of NAVSUP Weapon System Support (WSS) employees toured Effort Foundry, Bath, PA, after attending an AMC Metalcasting Concepts Seminar on April 16-17, 2019. During the tour, the group was able to see the complex step-by-step casting process and how this can affect both lead times and costs. Highlights of the tour included seeing how sand molds are made and watching the team at Effort pour a steel casting. The tour concluded with a Q&A and a brief presentation on new advancements in the industry.

CastExpo and Metalcasting Congress

AMC exhibited and made technical presentations at the 2019 CastExpo and Metalcasting Congress sponsored by the American Foundry Society (AFS). This is one of the largest international events for the metalcasting industry, combining an exhibition of industry suppliers with technical, management, and research presentations from experts around the world. This year's event took place on April 27-30, 2019 at the Georgia World Congress Center, Atlanta, GA and was attended by 5,450 industry and government representatives along with 425 exhibitors.

Another Successful AMC Technology Review

The 2019 AMC Technology Review was held in Chicago on June 11-12, 2019. During this two-day event, AMC's Innovative Casting Technologies (ICT) and Casting Solutions for Readiness (CSR) project teams presented their R&D results. Over 65 program and research leaders from industry, academia, and government attended as each of the twenty-one project teams demonstrated how they are continuing to support DoD's need for rapid production of high-performance, cost-effective cast parts for weapons systems.
