Summer 2024

## AMC Holds Successful 2024 Technology Review

The annual AMC Technology Review was held June 12-13, 2024, at the Hilton Garden Inn – O’Hare, Des Plaines, Illinois. The event was “hybrid,” allowing remote attendees to join the live presentations and submit questions. During this two-day event, AMC’s Innovative Casting Technologies (ICT) and Emergent Metal Casting Solutions (EMCS) project teams presented their current R&D efforts to over 55 program and research leaders from industry, academia and government. Each project team presented current results and how they will be transitioned into the casting industry to support DoD’s need for rapid production of high-performance, cost-effective cast parts in support of the warfighter.

## Joint AFCAT / Metal Fact Meeting

AMC and FDMC conducted a joint Aviation Forging and Casting Assistance Team (AFCAT) / Maritime and Land Forging and Casting Team (Metal FACT) meeting at ATI, Summerville, South Carolina on April 30 – May 2, 2024. The teams discussed and planned initiatives to help DLA Major Subordinate Commands in the timely and cost-effective procurement of spare parts.

## 2024 AFS Metalcasting Congress

AMC exhibited at the 2024 AFS Metalcasting Congress, April 23-25, 2024, in Milwaukee, Wisconsin. Over 2,700 people attended this premier event, including many from AMC, to benefit from technical presentations, networking and informational exhibits to improve business performance.

## Upcoming Events

- NADCA Die Casting Congress & Exposition, September 30 - October 2, 2024, Indiana Convention Center, Indianapolis, Indiana
- Defense Manufacturing Conference, December 2-5, 2024, Austin Convention Center, Austin, Texas.
- SFSA Technical & Operating Conference, December 11-14, 2024, Chicago, Illinois
